

# AIChE Resume Workshop 2018

**Resume, the most important page of your life!**

**Professor Victor Breedveld**

*AIChE Faculty Advisor*

*Assoc. Chair Undergrad. Studies*

# Why Write a Resume?

**Silly question... to get a job of course!**

However, there is a little more to it:

- **to convince prospective employers that you deserve an interview**
- to persuade your readers that you are the best person for the job
- to construct a professional image of yourself and establish your credibility
- to provide a sample of your written communication skills

# Basic Resume Facts & Ideas

- Not your complete life story, but an accurate summary of relevant skills and experience
- 1 page appropriate for BS level jobs
- Information tailored to the type of job and potential employer
- Your resume should be a “living document”, constantly being updated with new, relevant info (*don't wait until details are harder to remember!*)
- You can create a longer “master” resume that contains all of the information as your life/career progresses, and then edit the information down into specific resumes when you need them
- Be efficient with words and use ACTION verbs!!!

# Basic Resume Format

## Your Resume

## Objective

## Education

## Contact Information

## Experience

## Honors & Activities

Chris Q. Surname

### Campus Address

1234 Wilson Avenue  
West Lafayette, IN 47906  
(317) 133-4567  
chrissy@email.address.com

### Permanent Address

1234 Orion Trail  
Long Beach, IN 46350  
(317) 133-4567  
http://web.address--chrissy

### Objective

A sales and marketing internship allowing me to utilize my leadership and communication skills and apply my knowledge of the health care industry

### Education

Purdue University, West Lafayette, IN  
Krassner School of Management  
B.S. in Management  
• Marketing Minor  
• Human Resources Minor

May 1999  
Major GPA: 3.54/0  
GPA: 2.54/0

### Relevant Computer Applications

Microsoft Office  
Microsoft Access

Hotpage Commissions  
Internet Explorer

### Special Course Project

- Acted as client liaison for Memorial Hospital as part of Business Writing class project
- Conducted research and prepared report on more efficient communication systems

### Volunteer Service

- Volunteer, Memorial Hospital Pharmacy, Michigan City, IN December 1993 to May 1994
- Prepared prescriptions to meet diverse needs of patients and customers
  - Ordered various pharmaceutical products from different suppliers, handled billing
  - Offered over 100 hours of volunteer service in health care facility

### Work Experience

- Cashier, A's Plus Supermarket, Michigan City, IN May 1995-June 1997
- Trained new employees in customer relations and efficient money handling
  - Balanced cash register drawers and maintained high level of accuracy
  - Assisted manager with inventory and ordering procedures

- Sales Associate, Nina's Cottage, Michigan City, IN July 1993-November 1994
- Balanced registers and opened/closed store in a responsible manner

### Leadership Activities

- Old Masters
- Central Committee Co-Chair
  - Treasurer
  - Publicity
- Delta Gamma Sorority

Delta Sigma Pi Professional Fraternity  
Krassner Employees Forum Honors  
Management Ambassadors  
Purdue Water Ski Club  
March of Dimes Walk-A-Smile

# Kinds of Resumes

Approach	When to use	Drawbacks
<p>A <b>generic approach</b> to writing a resume involves creating <u>one</u> version for a broad range of readers.</p>	<ul style="list-style-type: none"><li>• large number of applications</li><li>• placing a resume on the Internet or in a job search database</li></ul>	<ul style="list-style-type: none"><li>• casts you as a "generic applicant" with undefined career goals</li><li>• makes it difficult for recruiters to decide whether you are the right candidate</li><li>• implies you are not especially interested in the organization or position</li></ul>
<p>A <b>tailored approach</b> to writing a resume involves creating <u>multiple</u> versions, each one <u>customized</u> for a single company or position.</p>	<ul style="list-style-type: none"><li>• whenever possible!</li><li>• for "top choice" positions</li><li>• for small number of applications</li><li>• previous contacts or connections with the organization</li></ul>	<ul style="list-style-type: none"><li>• takes more time to research each company/position and customize each resume</li><li>• increases chances to make mistakes with multiple versions</li></ul>
<p>A <b>combined approach</b> to writing a resume integrates the above two approaches; tailored resumes for "top choices" and a generic resume for all others.</p>	<ul style="list-style-type: none"><li>• when you want to maximize your chances for success</li></ul>	<ul style="list-style-type: none"><li>• can be difficult to keep organized</li></ul>

# Kinds of Resumes (2)

Type	Advantages	Disadvantages
<p><b>Traditional print resumes</b> are printed on paper or as PDF, usually to be mailed or hand-delivered.</p>	<ul style="list-style-type: none"><li>• allow you to use page design and formatting to emphasize your qualifications and skills</li></ul>	<ul style="list-style-type: none"><li>• difficult for computers to scan your resume</li><li>• requires knowledge of advanced formatting features in word-processing or desktop publishing programs</li></ul>
<p><b>Scannable resumes</b> are often printed on paper as well, but they are designed to be scanned first by a computer rather than a human eye; they include little visual and textual formatting (columns, varied font styles and sizes, etc.).</p>	<ul style="list-style-type: none"><li>• can be scanned by a computer so that employers can search for keywords</li><li>• required by some prospective employers (check job ad)</li><li>• easily sent via e-mail</li></ul>	<ul style="list-style-type: none"><li>• limits options for page design and layout</li></ul>
<p><b>On-line web resumes</b> are placed on a web server/site so they can be accessed by web browsers</p>	<ul style="list-style-type: none"><li>• adds many design/layout options</li><li>• allows links to other sites/files</li></ul>	<ul style="list-style-type: none"><li>• often not easy to print</li><li>• requires basic web design and authoring skills, an Internet connection, and server space</li></ul>

# Two Kinds of Readers/Reads

## **Skimmers:**

Resume readers are usually very busy and will probably not read every word. Especially on their first reading, busy readers will scan for desired information. It is your job to make such information easy to find "at a glance".

→ Give your resume the 20-second test:

- *What information stands out?*
- *What information gets lost in the rush?*

## **Skeptics:**

Once your resume has been skimmed, resume readers will look at it more closely and critically. Your resume may leave a good first impression on readers, but how will it look on closer inspection? Do you provide evidence and details for the careful reader? How can you make your resume look convincing "under the microscope"?

# What should be on your Resume?

## That depends...

- **on your age and experience**

- \* if you're a senior:

- "How can I possibly cram it all on one page?"*

- \* if you're a freshman:

- "How can I possibly fill one whole page?"*

- **on the position you apply for**

- \* what would your employer want to know?

# Key info employers are looking for

- **Academics/education:**  
Major/exp. graduation date/GPA are critical info  
Minor/certificate/study abroad/etc. are optional
- **Experience (professional):**  
Major-related (co-op/internship/research)  
Other (e.g. summer jobs)
- **Leadership/involvement/initiative:**  
What are you doing outside classroom?  
Have you shown leadership/initiative in those roles?
- **Honors/awards/scholarships:**  
Endorsements by 3<sup>rd</sup> party enhance credibility

# Info you want to communicate

- **Success**

Highlight things that make you shine

- **Growth**

Show that on the way from freshman to senior you have grown professionally and personally  
*(employers may have last year's resume too!!!)*

- **Coherent trajectory**

How do the various elements on your resume connect? Make it easy to see the story.

- **Credibility**

Make it easy for reader to check + confirm facts  
*(provide enough details on things like co-authored papers, awards and co-op/internship)*

# Be a Journalist for Content

<b><i>who?</i></b>	write down position titles, names of your supervisors, leaders, etc.
<b><i>what?</i></b>	list your responsibilities and duties, special projects; describe the nature of your experience <i>(volunteer, intern, academic, work, etc.)</i>
<b><i>where?</i></b>	indicate places where you acquired such experience <i>(the organization, program, department, division, etc.)</i>
<b><i>when?</i></b>	include important dates <i>(starting date, ending date, dates of promotion, etc.)</i>
<b><i>why?</i></b>	write down the goals (personal, professional, or organizational) you were trying to achieve

# Skills Lists

administering programs	planning agendas/meetings	updating files
advising people	planning organizational needs	setting up demonstrations
analyzing data	predicting futures	sketching charts or diagrams
assembling apparatus	rehabilitating people	writing reports
auditing financial reports	organizing tasks	writing for publication
budgeting expenses	prioritizing work	expressing feelings
calculating numerical data	creating new ideas	checking for accuracy
finding information	meeting people	classifying records
handling complaints	evaluating programs	coaching individuals
handling detail work	editing work	collecting money
imagining new solutions	tolerating interruptions	compiling statistics
interpreting languages	confronting other people	inventing new ideas
dispensing information	constructing buildings	proposing ideas
adapting new procedures	coping with deadlines	investigating problems
negotiating/arbitrating conflicts	promoting events	locating missing information
speaking to the public	raising funds	dramatizing ideas
writing letters/papers/proposals	questioning others	estimating physical space
reading volumes of material	being thorough	organizing files

# Skills Lists (2)

remembering information	coordinating schedules/times	managing people
interviewing prospective employees	running meetings	selling products
listening to others	supervising employees	teaching/instructing/training individuals
relating to the public	enduring long hours	inspecting physical objects
entertaining people	displaying artistic ideas	distributing products
deciding uses of money	managing an organization	delegating responsibility
measuring boundaries	serving individuals	mediating between people
counseling/consulting people	motivating others	persuading others
operating equipment	reporting information	summarizing information
supporting others	encouraging others	selling ideas
determining a problem	defining a problem	comparing results
screening telephone calls	maintaining accurate records	drafting reports
collaborating ideas	administering medication	comprehending ideas
overseeing operations	motivating others	generating accounts
teaching/instructing/training individuals	thinking in a logical manner	making decisions
becoming actively involved	defining performance standards	resolving conflicts
analyzing problems	recommending courses of action	

# Skills Lists (3)

preparing written communications	expressing ideas orally to individuals or groups	conducting interviews
performing numeric analysis	conducting meetings	setting priorities
setting work/committee goals	developing plans for projects	gathering information
taking personal responsibility	thinking of creative ideas	providing discipline when necessary
maintaining a high level of activity	enforcing rules and regulations	meeting new people
developing a climate of enthusiasm, teamwork, and cooperation	interacting with people at different levels	picking out important information
creating meaningful and challenging work	taking independent action	skillfully applying professional knowledge
maintaining emotional control under stress	knowledge of concepts and principles	providing customers with service
knowledge of community/government affairs		

# Use ACTION Verbs!!

The following job description uses a non-action verb:

“Was the boss of a team of six service employees “

The job description below uses an action verb:

“***Supervised*** a team of six service employees”

The description using a non-action verb is less concise. It may seem like a small difference, but details matter on a resume!

# Resume Format

To make your resume readers' job easier, you should consider developing at least a *two-level text*, using:

1. headings to help skimmers find what they are looking for
2. details to convince skeptical readers you really have the qualifications you say you do

***A common approach to organizing sections is to use the following scheme:***

- ***Objective Statement*** (optional)  
(or Career Goal, Professional Objective, etc.)
- ***Education***
- ***Work Experience***  
(or Work History, Professional History, Experience, etc.)
- ***Leadership and Involvement***  
(or Extracurricular Activities, Initiatives and Involvement, etc.)
- ***Honors and Awards*** (if you have more than 1 to list)
- ***Skills*** (only if there are specific, relevant skills there)

# Resume Format (2)

*What if you want to emphasize your extracurricular leadership activities, your language proficiency, volunteer work, publications, or technical skills? The previous scheme doesn't leave a space for you to emphasize such qualifications.*

## → Simply create your own headings

to match the content of your resume and the job ad best. You can do this by modifying, for example, Experience or Activities with descriptive adjectives that describe your skills more accurately (*Supervisory Experience, Leadership Activities, etc.*).

### Alternative Headings

honors and awards  
publications  
language proficiency  
presentations  
in-house seminars  
achievements  
internships  
military experience  
qualifications  
career profile  
community service  
relevant coursework

continuing education  
advanced career training  
specialization  
special projects  
career-related skills  
familiar computer applications  
technical training  
licenses and certification  
accomplishments  
skills summary  
volunteer work  
memberships

# Resume Format (3)

Options	Sample	Tips
<p><b>headings and subheadings</b> to make it easier for readers to find desired information</p>	<p><b>Managerial Experience</b>            Assistant Manager            Management Intern</p> <p><b>Education</b>            B.S. in Aviation Technology  <i>Relevant Coursework</i></p>	<ul style="list-style-type: none"> <li>• customize headings if possible</li> <li>• make sure headings match section content</li> <li>• use subsections and subheadings, if necessary (for example, if you held two jobs at the same place, create a subsection for each position)</li> </ul>
<p><b>bullets</b> to break up dense prose passages that slow down the eye and make it difficult for readers to process information</p>	<ul style="list-style-type: none"> <li>• developed department inventory database system</li> <li>• assisted students with technical problems</li> </ul>	<ul style="list-style-type: none"> <li>• try to limit to 2-5 bullets if possible (6 or more reduces effectiveness)</li> <li>• use descriptive phrases rather than complete sentences (periods, caps, etc. unnecessary)</li> <li>• experiment with other kinds of bullets besides the standard ones used here</li> </ul>
<p><b>indents and line breaks</b> to indicate your organizational scheme</p>	<p>Field Experience            Westminster Village</p> <p style="padding-left: 40px;">Planned Activities</p>	<ul style="list-style-type: none"> <li>• minimize punctuation when using line breaks and indents (white space "punctuates" instead)</li> <li>• play with margins or tabs to indent more or less than the standard 5 spaces</li> </ul>
<p><b>varying fonts</b>            -<u>font choice</u> (Times Roman, Geneva, Arial, Helvetica, etc.)            -<u>font size</u>            -<u>font style</u> (bold, italics, underline, caps, etc.)</p>	<p><b>WORK EXPERIENCE</b>  <b><i>Research Assistant</i></b>            New Crops and Plants Products</p>	<ul style="list-style-type: none"> <li>• limit yourself to a couple font choices: one for headings (sans serif fonts-that is, fonts like <u>this</u>-work well because they stand out) and one for rest (serif fonts like <u>this</u> are a great choice because they are more readable)</li> <li>• avoid font sizes much smaller than 9 or 10 pt.</li> <li>• avoid over-highlighting by, for example, using caps, boldface, italics and underline all on the same text</li> </ul>

# Other Considerations

- Don't be too creative:  
engineers are expected to be boring
- Electronic version: create PDF file
- Paper still matters...
  - Nicer, heavier quality paper gives a professional feel
  - Off-white colors can also look good but be careful that they are not distracting
  - Make sure the resume copies/scans well on your paper by actually trying it

# Cover Letters: More Useful Than You Think

**A cover letter introduces you and your resume to potential employers or organizations you seek to join**

*It is the first document an employer sees, so it is often the **first impression** you will make. Take advantage of this important first impression and prepare the reader for your application, stating why you are writing, why you are a good match for the job and the organization, and when you will contact him or her.*

**Cover letters do more than introduce your resume; they can also:**

- Explain your experiences in a story-like format that works with the information provided in your resume.
- Allow you to go in-depth about important experiences/skills and relate them to specific job requirements
- Show the employer that you are individualizing your application
- Provide a sample of your written communication skills

**Richard Anderson**  
1234, West 67 Street,  
Carlisle, MA 01741,  
(123)-456 7890.

**OBJECTIVE :**

Seeking an entry-level position in embedded systems, software development, web-design or other position where I can apply my knowledge of programming.

**EDUCATION :**

**University of Colorado at Boulder**  
**B.S., Computer Science, May 2002**  
**Relevant Courses :**

- Data Structures
- Programming Languages
- Computers as Components
- Digital Logic
- Software Engineering
- Computer Organizations
- Numerical Computation
- Operating Systems
- 

**TEAMWORK EXPERIENCE :**

- Digital Logic Course Project: Designed and implemented circuits using Xilinx to make an elevator operate.
- Senior Group Project: Designed and implemented a project sponsored by Colorado Frame Company to design picture frames and calculate the cost of materials using Java language.

**COMPUTER SKILLS :**

Operating systems:  
Win 95/98, UNIX

Languages:

C, C++, 8088 Assembly, Scheme, Lisp, Java, Visual Basic

Software:

Mathematica, MS Word, MS Excel, MS PowerPoint, MS Access

Web:

Experienced in HTML, DreamWeaver

**WORK EXPERIENCE :**

- Pre-Paid Legal Services, Sales Representative/Manager , 1/2003 – Present
- CU Parking Services, Cashier , 5/98 – 5/00
- Wal-Mart, Steamboat Springs, CO , 5/97 – 5/98
- Operator in Vietnam Paging Center, Vietnam , 5/95 – 5/97

**LEADERSHIP ACTIVITIES :**

- Active Member, International Club, University of Colorado at Boulder, 1998 – Present
- Engineering Peer Advocate, University of Colorado at Boulder , 2000 – 2001

**HONORS :**

- Dean's List: Spring 2002
- Sole annual recipient, Boulder Multicultural Diversity Scholarship, 2001

**FOREIGN LANGUAGES :**

Vietnamese: Fluent (Native Language)

French: Basic

# George P. Burdell

gburdell@gatech.edu

(555) 555-2121

**School Address:**  
33XXXX Georgia Tech Station  
Atlanta, GA 30332

**Permanent Address:**  
123 Sting Em Dr.  
Whosville, GA 30000

---

**Objective:** To obtain an Internship for Summer 2009 in a field related to Chemical and Biomolecular Engineering.

**Education:** **Georgia Institute of Technology**, Atlanta, GA **Aug 2007 - present**  
Bachelor of Science in Chemical and Biomolecular Engineering  
Expected Graduation: December 2011  
GPA: 3.82/4.0

**Hornet High School**, Whosville, GA **Aug 2003 – May 2007**  
GPA: 3.76/4.0

**Employment History:** **Georgia Institute of Technology**, Atlanta, GA **May 2008 – July 2010**  
*Undergraduate Research Assistant*  
*Research Advisor: Prof. Clifford L. Henderson*  
Processed polymer thin film samples and performed atomic force microscopy, SEM, and ellipsometry characterization of samples.

**Georgia Tech Research Institute**, Atlanta, GA **Aug 2009 – Apr 2010**  
*Student Assistant*, Georgia Tech Research Institute ITTL Lab  
Performed data management and organization using Access database platform. Conducted literature, internet, and interview based research for project. Obtained a Secret Security Clearance.

**Buzz Pediatrics, P.C.**, Whosville, GA **May 2006 – Aug 2007**  
*Receptionist*  
Job responsibilities included database data entry, customer reception, processing of medical insurance claims, and processing of customer payments.

**Skills:**

- Confocal laser microscopy, atomic force microscopy, ellipsometry, SEM
- Windows operating systems from 95 through XP Office and Home
- MATLAB
- Aspen HYSYS Chemical Process Simulation Software
- Highly Proficient with Wisdom, Microsoft Office
- Adobe PageMaker

**Interests & Activities:** Alpha Omega Epsilon Professional Engineering Sorority, (Aug 2007-present)

- *Risk Manager* (Apr 2008 – present)

Georgia Tech AIChE Student Chapter (Oct 2007 – present)

- *Treasurer* (Apr 2008 – Apr 2009)

Campus ministry (BCM), (Sep 2006 – present)

- *Leadership Team Member* (Apr 2007-Apr 2008)

Omega Chi Epsilon Chemical Engineering Honor Society (Apr 2008-present)  
Georgia Tech Marching Band, (Aug 2006- Jan 2007)

**Honors & Awards:** Dean's List (Fall '07, '08, '09; Spring '08, '09, '10)  
Georgia Tech Alumni Scholarship (2007)  
Hope Scholar (Aug 2007-present)  
Eric S. Oberman Scholarship (2007)  
Daily Cox Scholarship (2007)
